

April 3, 1940

Dear Sir,

I have your letter of March 24th and am writing to my publishers, who possess the copyright, recommending that they should accede to your request for permission to reprint tables I and III from my Statistical Methods for Research Workers.

I should like to congratulate you on your enterprise in publishing at the present time a book in Italian on statistical methods applied to biometrical problems.

Yours sincerely,

Gustav Barbensi  
Via Margherita 28  
Florence.
