The academical work of the University was commenced in March, 1876, the number of matriculated students being 8, and of non-graduating students attending lectures 52. The foundation stone of the University buildings was laid by his Excellency Major-General Sir W. F. D. Jervois on July 30th, 1879, and the buildings were opened by him in April, 1882. Their total cost, including that of subsequent additions, was about £38,000.

In 1883 Sir Thomas Elder made to the University a second gift, amounting to £10,000, for the foundation of a School of Medicine. The University Council thereupon established a Chair of Anatomy and a Lectureship in Physiology, and made further provision for the first two years of the medical course. In 1886 arrangements were completed for a complete medical curriculum. In 1884 the Hon. J. H. Angas, M.L.C., gave £6,000 for the endowment of a Chair of Chemistry, and in the following year the first Angas Professor of Chemistry was appointed. The Chair of Music was established in 1884 and a Professor of Music appointed. This chair had no special endowment, but through the efforts of His Excellency Sir W. C. F. Robinson, was supported for the first five years by voluntary subscriptions from the public, amounting to £530 per annum, of which sum Sir Thomas Elder contributed £300 yearly. In 1890 the Council established a Professorship of Law in place of the Lectureship in Law which had existed since 1883.

In 1878 the Hon. J. H. Angas gave £4,000 to provide for Scholarships to encourage the training of scientific men, and especially civil engineers, with a view to their settlement in South Australia.

In 1908 a bequest of £2,000 from the late Mr. David Murray, and an endowment of £1,000 from Mr. G. J. R. Murray, K.C., B.A., LL.B., for Scholarships, were received.

Since 1892 Robert Barr Smith, Esquire, presented to the University £8,000 for the purposes of the Library. The Library now, in consequence of the large additions rendered possible by these gifts, contains over 20,000 volumes.

Sir Thomas Elder died in 1897, bequeathing to the University the sum of £65,000, his total gifts to the Institution

amounting from first to last to nearly £100,000. By the terms of his will the bequest was apportioned in the following manner, namely, £20,000 to the School of Medicine and £20,000 to the School of Music, while the residue was left available for the general purposes of the University. An Elder Conservatorium of Music was accordingly established in 1898, in which instruction is given in all branches of musical education. The foundation-stone of the Conservatorium building was laid by His Excellency Sir Thomas Fowell Buxton on September 26th, 1898. The Conservatorium Building, which contains a large public hall and an admirable suite of class-rooms for instruction in music was completed in February, 1900, and formally declared open by His Excellency Lord Tennyson on the 26th September of that year.

In consequence of the large increase in the number of students and the necessity for increased accommodation for the Engineering and Science Schools, a large suite of rooms was built during the year 1901. The foundation-stone of the new building was laid by His Royal Highness the Duke of Cornwall and York on the 11th July, 1901. With his consent the new wing is called the Prince of Wales Buildings. It contains extensive Chemical and Engineering Laboratories and a Lecture Theatre, with seating accommodation for 300 students.

For several years the equipment and accommodation of the Medical Laboratories were very severely taxed. In order to provide adequate provision for the increasing number of medical students, new buildings at a cost of £5,814 were erected. His Excellency Lord Tennyson laid the foundation-stone on the 14th July, 1902, and the buildings were completed in time for the beginning of the academical year 1903.

In 1898 the Council was enabled, by means of Sir Thomas Elder's bequest, to make arrangements for a post-graduate course in Mining Engineering and Metallurgy, and for the granting of a Diploma in these subjects. These Regulations have, however, been repealed, as in March, 1903, the Council of the University concluded an agreement with the Council of the South Australian School of Mines and Industries, under which the two Institutions shall in future combine, to some extent, their teaching powers and

their laboratories for the purpose of providing courses of instruction in Mining Engineering, Metallurgy, Mechanical Engineering, and Electrical Engineering. The University and the School of Mines, acting in concert, hold examinations and grant Diplomas in various branches of Applied Science. It is expected that this agreement will conduce to greater efficiency as well as to economy, and that the courses for the Diploma in Applied Science will rank with those of the best Institutions in other parts of the Empire.

In addition, the Council was enabled to offer greater facilities for the education of teachers of the State Schools, and the bonds between the University and the Education Department have been drawn closer by the fact that the Training College for Public School Teachers has practically been transferred to the University, which now provides for students in training, without fee, lectures in all but the professional, or practical, subjects of their work.

The University is governed by a Council of twenty members, elected by the Senate. The Senate consists of all graduates of the degree of Master or Doctor and of all other graduates of three years' standing. All Statutes and Regulations must be passed both by the Council and by the Senate and approved by the Governor. The Senate was constituted in 1877, there being at that date at least 50 qualified graduates, the minimum number required by the Act of Incorporation.

The number of graduates admitted by examination since the establishment of the University is 536, and number admitted *ad eundem gradum*, 277. The number of undergraduates in the year 1909 was 389, and of non-graduating students, 269, exclusive of those studying at the Elder Conservatorium, of whom in 1909 there were 381. The teaching staff of the University comprises 10 Professors and 25 Lecturers, and that of the Elder Conservatorium 10 Teachers.

Facilities for University Examinations have been extended to the country, and local centres with permanent Committees have been formed for the Primary Public Examination and Examinations in Music at Broken Hill, and for the Primary, Junior Public, Senior Public, Higher Public, and Music Examinations at

Balaklava, Blumberg, Bordertown, Burra, Strathalbyn, Mount Gambier, Narracoorte, Millicent, Mount Barker, Gawler, Gladstone, Petersburg, Port Pirie, Clare, Jamestown, Kapunda, Elliston, Koolunga, Laura, Moonta, Riverton, Yorketown, Crystal Brook, Kadina, Mannum, Mount Pleasant, Quorn, Port Augusta, Renmark, and Streaky Bay, and at Albany, Kalgoorlie, and Perth in Western Australia. In the interests of education, Extension Lectures are also given in country centres, as well as at the University.

** Allowed January 13, 1909.*

*V. The Scholarship shall be awarded by the Examiners on a comparison of the academic records of the candidates, and also on the merits of an original thesis, design, or investigation, as set forth in the next paragraph.

Each candidate for the Scholarship must send in to the Examiners, on or before June 1st of the year in which the competition is held, either an original engineering design or a thesis setting forth the results of an original scientific investigation made by the candidate in some subject allied to engineering. The subject of the design or thesis must have been submitted to, and approved by, the Faculty of Science at least three months previously. Each candidate must adduce, if required, sufficient evidence of the authenticity of his design or thesis. He may, if the Examiners think fit, be required to pass an examination in that branch of the work from which the subject of his design or thesis is taken.

VI. Within such time after gaining the Scholarship as the Council shall in each case allow, the Scholar shall proceed to the United Kingdom and there spend the whole of the time, during which the Scholarship is tenable, in articles to an Engineer, or as a student of engineering in a College or University there, or partly in articles to an Engineer and partly as a student of engineering in a College or University, such Engineer, College, or University to be approved by the Council; provided that the Scholar may by special permission of the Council spend the whole or part of his time in study or practical training outside the United Kingdom.

VII. Payment of the Scholarship computed from the first day of July following the competition, shall be made quarterly, at the office of the Agent-General in London, or at such other place or places as the Council shall from time to time direct, subject after the first payment to the previous receipt of satisfactory evidence of good behaviour and continuous progress in Engineering Studies, according to the course proposed to be followed by the Scholar.

VIII. Whenever such evidence is not satisfactory, the Council may altogether withhold, or may suspend for such time as it may deem proper, payment of the whole or of such portion as it may think fit of any moneys due, or to accrue due, to the Scholar on account of the Scholarship, or may deprive him of his Scholarship.

IX. On his returning to settle in South Australia within five years from the time of gaining the Scholarship, and in possession of such Degree, Diploma, or Certificate as an Engineer as the Council shall approve, and upon his writing to the approval of the Council a report of his proceedings and engineering work, the Scholar shall receive the further sum of £70 towards his travelling expenses.

X. Should any successful candidate not retain the Scholarship for the full period of two years, notice of the vacancy shall be published by the Council in the Adelaide daily papers ; and an examination shall be held in the month of June next ensuing.

The Exhibition shall be forfeited if the holder fail to observe the above requirements, unless such failure shall, in the opinion of the Council, have been caused by ill-health or other unavoidable cause. The decision of the Council as to such forfeiture shall be final.

XV. Payment of the Exhibitions shall be made quarterly, beginning with the first day of June following the award, out of the income (when received) of the money hereinafter mentioned ; but payment need not be made to any Exhibitioner whose conduct as a student throughout the

The duration of the Medical curriculum, fixed on the establishment of the Medical School in 1885 at five years, is now found quite inadequate to meet the greatly increased scope of necessary medical knowledge. To meet this difficulty it has been decided to remove the subjects of Elementary Biology, Elementary Physics, and Inorganic Chemistry from the curriculum for the M.B. degree, and to require that intending students shall, before entering upon the Medical course, pass in these subjects either in the Higher Public Examination or in the B.Sc. Course.

By this change students will be able to devote the whole of their first year to professional subjects, instead of, as hitherto, being compelled to spend the greater part of that period in the study of the three purely scientific subjects which, in and after 1911, will be excluded from the medical curriculum.

During the year permanent Centres for the University Public Examinations were formed at Balaklava, Blumberg, and Strathalbyn. There are now 32 country Centres in existence.

The Minister of Education again granted, gratuitously, the use of the Exhibition building for the Examinations in November, as, in consequence of the large number of candidates presenting themselves, the accommodation in the University was inadequate.

XV. PUBLIC EXAMINATIONS IN MUSIC.

In accordance with the agreement with the University of Melbourne, Professor Peterson and Dr. Price (of Melbourne) and Professor Ennis examined in Theory of Music while Mr. W. A. During the year the Regulations of 1893 of the Education Department, under which three Entrance Scholarships were granted annually, were repealed, and new Regulations providing for ten Bursaries were substituted.

Under the Regulations of 1909 recommendations for Entrance Bursaries are being made for the year 1910 on the results of the Higher Public Examination in November.

XIX. COMMERCIAL EDUCATION.

The Commercial Classes were well attended. Courses of Lectures on Accountancy, Business Practice, Economics, and Commercial Law were provided.

The provision made for granting a Diploma in Commerce has met with encouraging results.

In accordance with the provision of the Fisher Statute, that in every alternate year a Lecture, to be called the Joseph Fisher Lecture, on some subject of Commerce, shall be delivered at the University and subsequently be published, Mr. Russell French, of Sydney, has consented to deliver the fourth lecture in April next.

During the year students attended lectures and passed examinations as follows:—

Accountancy, 32 attended lectures, and 10 passed.

Economics I., 26 attended, and 15 passed. Economics II., 3 sat for examination and passed.

Commercial Law, 52 attended, and 20 passed.

Business Practice, 41 attended, and 16 passed.

Banking and Exchange, 2 sat for examination and passed.

The Joseph Fisher Medal was awarded to Alfred James Dobson.

presented themselves, of whom 2 passed in the five compulsory subjects and 9 in fewer than the five compulsory subjects.

The Senior Commercial Scholarship was awarded to Roy Cleveland Williamson.

XX. CLASSES FOR DENTAL STUDENTS.

During the year elementary classes in certain subjects for apprentices in Dentistry were held, and 15 students attended.

XXI. EXTENSION LECTURES.

During the year the following courses of Extension Lectures were given at the University:—

Three lectures on "British Imperialism in the Reign of Queen Victoria," by Professor Henderson; three lectures on "The Greek Drama," by Professor Darnley Naylor; three lectures on "The State and the Individual" by Professor Jethro Brown; and three lectures on "The Evolution of Worlds," by Professor Chapman.

Professors Henderson and Chapman gave courses at the Y.M.C.A. University Centre.

During the first vacation Professor Naylor delivered lectures in Western Australia.

All applications made to the University by Country Centres and Institutes in South Australia for courses of Extension Lectures have been complied with. The Professors devoted the May and August vacations to lecture tours, and courses were delivered at Glenelg, Mount Lofty, Mount Barker, Strathalbyn, Naracoorte, Mount Gambier, Millicent, Riverton, Petersburg, Jamestown, Laura, Gawler, and Kapunda.

Three courses will be given at the University in 1910, viz.:—

Three lectures by Professor Darnley Naylor; three by Professor Henderson; and three on "Antarctic Exploration," by Mr. Douglas Mawson.

ADDITIONAL LECTURES.

In May, Lieutenant Shackleton, leader of the British Antarctic Expedition, delivered two lectures, illustrated by lantern slides, in connection with the visit to Antarctica.

Lieutenant Shackleton generously handed the net proceeds of the lectures to the Committee of the University Sports Ground.

In September Dr. Thomas Hodgkin delivered two lectures, the first on "The Fall of the Roman Empire and its Lessons for us," and the second on "Ravenna and its Mosaics." Dr. Hodgkin kindly repeated the latter lecture for the benefit of those who were unable to attend the first.

XXII. REPRESENTATION OF THE UNIVERSITY ON THE BOARD OF GOVERNORS OF THE PUBLIC LIBRARY, MUSEUM, AND ART GALLERY.

In October Professor Henderson and Professor Brown were re-elected by the Council to represent the University on the Board of Governors of the Public Library, Museum, and Art Gallery of South Australia.

XXIII. REPRESENTATION OF THE UNIVERSITY ON THE BOARD OF MANAGEMENT OF THE ADELAIDE HOSPITAL.

William Thornborough Hayward, M.R.C.S., was re-elected to represent the University on the Board of Management of the Adelaide Hospital.

XXIV. INVITATIONS TO CONGRESSES AND CELEBRATIONS.

1. During the year the Council received invitations to send representatives to—

The 350th anniversary of the University of Geneva, held in July, at which Mr. G. J. R. Murray, K.C., B.A., LL.B., represented this University.

The 500th anniversary of the University of Leipzig, in July. A congratulatory address was forwarded, but unfortunately the representatives nominated by the Council could not attend.

The Inauguration of Dr. R. S. Maclaurin, M.A., as President of the Massachusetts Institute of Technology, in June.

The Inauguration of Dr. A. L. Lowell as the President of the Harvard University, in October.

The Alaska-Yukon-Pacific Exposition, in August.

XXV. SOLAR RESEARCH.

This subject has again been before the Council during the year. Two conferences were held in Melbourne, at which the University was represented, at the first by Professor

Chapman and at the second by Professor Henderson. The Council are in full sympathy with the scheme and are hopeful that some practical result may ensue during the forthcoming year.

XXVI. FREE PASSAGES TO EUROPE FOR UNIVERSITY STUDENTS.

Early in the year the Orient Steamship Company, through their Australian representative, Mr. K. S. Anderson, approached the Council and offered two free first class return passages per annum in favour of graduates of the University going to Europe for the purpose of continuing their studies, the passages to be taken during the months of May to September homewards to Europe and outwards during the months of March to July.

The offer was gratefully accepted by the Council, and the first student to benefit by the generosity of the Company was Mr. J. L. Glasson, B.Sc., who proceeded to London in July last to continue research work.

XXVII. UNIVERSITY SPORTS GROUND.

In order to provide a suitable recreation ground for the students, the University has obtained from the Corporation of Adelaide a 21 years' lease of 6½ acres of the Park Lands on the north side of the Torrens, between Avenue and Frome Roads.

A boathouse and a pavilion have been erected, and an oval for use by the various clubs—cricket, football, lacrosse, tennis, hockey, &c.—has been prepared. Mr. Barr Smith gave £750 for the erection of the boathouse; and 12 donors (B. Barr Smith, T. E. Barr Smith, F. J. Fisher, Chas. Goode, John Gordon, R. T. Melrose, A. J. Murray, G. J. R. Murray, S. S. Ralli, T. Scarfe, Sir Ernest Shackleton, C.V.O., and the Right Hon. Sir S. J. Way, Bart.) gave £100 each towards the erection of the pavilion. Many members of the University and other friends also subscribed liberally to the fund for general purposes.

XXVIII. UNIVERSITY LIBRARY.

Valuable additions were made to the Library during the year. It now contains over 22,000 volumes.

XXIX. DONATION FROM PHARMACEUTICAL SOCIETY.

The Pharmaceutical Society of South Australia forwarded a fifth donation of seven guineas, to be applied to any purpose the Council might deem desirable.

XXX. ACCOUNTS.

An abstract, duly audited, of the income and expenditure during the year 1909 is annexed to this Report. There is also a further statement, showing the actual position of the University with respect to its property, funds, and liabilities at the close of 1909.

Signed on behalf of the Council,

S. J. WAY,

Chancellor

LETTERS PATENT.

Dated 22nd March, 1881.

Victoria, by the Grace of God, of the United Kingdom of Great Britain and Ireland Queen, Defender of the Faith, Empress of India : To all to whom these Presents shall come, greeting.

WHEREAS, under and by virtue of the provisions of three Acts of the Legislature of South Australia, respectively known as "The Adelaide University Act," "The Adelaide University Act Amendment Act," and "The University of Adelaide Degrees Act," a University consisting of a Council and Senate has been incorporated and made a body politic with perpetual succession, under the name of "The University of Adelaide," with power to grant the several Degrees of Bachelor of Arts, Master of Arts, Bachelor of Medicine, Doctor of Medicine, Bachelor of Laws, Doctor of Laws, Bachelor of Science, Doctor of Science, Bachelor of Music, and Doctor of Music :

And whereas the Chancellor, Vice-Chancellor, and Council of the said University, by their humble petition under the common seal of the University, have prayed Us to the effect following (that is to say) :

To grant Our Letters Patent, declaring that the aforesaid Degrees already conferred or hereafter to be conferred by the University of Adelaide shall be recognized as academic distinctions and rewards of merit, and be entitled to rank, precedence, and consideration within Our Dominions as fully as if the said degrees had been conferred by any University in Our United Kingdom of Great Britain and Ireland ; and that such recognition may extend to Degrees conferred on Women :

Now know ye that We, having taken the said petition into Our Royal consideration, do, by virtue of Our prerogative and of Our special grace, certain knowledge, and mere motion, by these presents, for Us, Our heirs and successors, will and ordain as follows :

I. The Degrees of Bachelor of Arts, Master of Arts, Bachelor of Medicine, Doctor of Medicine, Bachelor of Laws, Doctor of Laws, Bachelor of Science, Doctor of Science, Bachelor of Music, and Doctor of Music, heretofore granted or conferred and hereafter to be granted or conferred by the said University of Adelaide on any person, male or female, shall be recognized as academic distinctions and rewards of merit, and be entitled to rank, precedence, and consideration in Our United Kingdom and in Our Colonies and Possessions throughout the World, as fully as if the said Degrees had been granted by any University of Our said United Kingdom.

II. No variation of the constitution of the said University which may at any time, or from time to time, be made by any Act of the Legislature of South Australia shall in any manner annul, abrogate, circumscribe, or diminish the privileges conferred on the said University by these Our Letters Patent, nor the rank, rights, privileges, and considerations conferred by such Degrees, so long as the standard of knowledge now established, or a like standard, be preserved as a necessary condition for obtaining the aforesaid Degrees.

III. Any such standard shall be held sufficient for the purposes of these Our Letters Patent if so declared in any proclamation issued by Our Governor of South Australia for the time being.

In witness whereof We have caused these Our Letters to be made Patent. Witness Ourselves at Westminster, the 22nd day of March, in the Forty-fourth year of Our Reign.

By Warrant under the Queen's Sign Manual.

14. If after the expiration of a quarter of an hour from the time appointed for the meeting there shall not be twenty members present the meeting shall lapse.

15. If it shall appear on notice being taken, or on the report of a division by the tellers, that twenty members are not present, the Warden shall declare the meeting at an end or adjourned to such time as he shall direct, and such division shall not be entered on the Minutes.

16. The Senate may adjourn any meeting or debate to a future day.

III. NOTICES.

17. Notice of every meeting shall be given by circular posted six clear days before such meeting to the last-known address of every member resident in the colony, and to such other members of the Senate as may request notices to be forwarded to them.

18. All notices of motion or of questions and all nominations must reach the Clerk at the University, before 1 p.m. on the eleventh day before the day of meeting.

IV. CONDUCT OF BUSINESS.

A. AGENDA.

19. The business at any meeting shall be transacted in the following order, and not otherwise, except by direction of the Senate:

- a. Reading, amendment, and confirmation of Minutes.
Business arising out of the Minutes.
- b. Election of Warden and Clerk.
- c. Election of Members of the Council.
- d. Questions.
- e. Business from the Council.
- f. Motions on the Notice-paper.
- g. Other business.

20. Except by permission of two-thirds of the members present, no member shall make any motion initiating for discussion a subject which has not been duly inserted on the Notice paper for that meeting.

21. Except subject to the preceding Order, no business shall be entered on at an adjourned meeting which was not on the Notice Paper for the meeting of which it is an adjournment.

B. RULES OF DEBATE.

22. Whenever the Warden rises during a debate any member then speaking or offering to speak shall sit down and the Warden shall be heard without interruption.

23. If the Warden desires to take part in a debate, he shall vacate the chair for the time.

24. Every member desiring to speak shall rise in his place and address himself to the Warden.

25. When two or more members rise to speak the Warden shall call upon the member who first rose in his place.

26. A motion may be made that any member who has risen "be now heard," and such motion shall be proposed, seconded, and put without discussion or debate.

27. Any member may rise at any time to speak "to order."

28. A member may speak upon any question before the Senate or upon any amendment proposed thereto, or upon a motion or amendment to be proposed by himself, or upon a point of order, but not upon the motion that the question be now put, or that a member be now heard.

29. By the indulgence of the Senate a member may explain matters of a personal nature, although there be no question before the Senate, but such matters may not be debated.

30. No member may speak twice to a question before the Senate except in explanation or reply; but a member who has merely formally seconded a motion or amendment shall not be deemed to have spoken.

31. A member who has spoken to a question may again be heard to explain himself in regard to some material part of his speech, but shall not introduce any new matter.

32. A reply shall be allowed to a member who has made a substantive motion, but not to any member who has moved an amendment.

33. No member may speak to any question after it has been put by the Warden and the show of hands has been taken thereon.

34. No member shall reflect upon any vote of the Senate except for the purpose of moving that such vote be rescinded.

35. In the absence of a member who has given notice of a motion any member present may move such motion.

36. A motion may be amended by the mover with leave of the Senate.

37. Any member proposing an amendment may be required to deliver it in writing to the Warden.

38. Any motion or amendment not seconded shall not be further discussed, and no entry thereof shall be made on the Minutes.

39. A member who has made a motion or amendment may withdraw the same by leave of the Senate, granted without any negative voice.

40. No motion or amendment shall be proposed which is the same in substance as any question which during the same evening has been resolved in the affirmative or the negative.

41. The Senate may order a complicated question to be divided.

42. When amendments have been made the main question as amended shall be put.

43. When amendments have been proposed but not made, the question shall be put as originally proposed.

44. A question may be suspended—

(a) By a motion, "That the Senate proceed to the next business."

(b) By the motion "That the Senate do now adjourn."

45. A debate may be closed by the motion "That the question be now put," being proposed, seconded, and carried, and the question shall be put forthwith without further amendment or debate.

C. DIVISIONS.

46. So soon as a debate upon a question shall be concluded, the Warden shall put the question to the Senate.

47. A question being put shall be decided in the first instance by a show of hands.

48. The Warden shall state whether in his opinion the "Ayes" or the "Noes" have it, but any member may call for a division.

49. When a division is called the Warden shall again put the question, and shall direct the "Ayes" to the right and the "Noes" to the left, and shall appoint a teller for each party.

50. The vote of the Warden shall be taken before the other votes, without his being required to leave the chair.

51. Every member present when a division is taken must vote except as hereinafter provided.

52. No member shall be entitled to vote in any division unless he be present when the question is put.

53. No member shall be entitled to vote upon any question in which he has a direct pecuniary interest, and the vote of any member so interested shall be disallowed if the Warden's attention be called to it at the time.

54. In case of an equality of votes the Warden shall give a casting vote, and any reasons stated by him shall be entered in the Minutes.

55. An entry of the lists of divisions shall be made by the Clerk in the Minutes.

56. In case of confusion or error concerning the numbers reported, unless the same can be otherwise corrected, the Senate shall proceed to another division.

57. While the Senate is dividing, members can speak only to a point of order.

D. ELECTIONS.

58. The annual election of Warden and of Clerk shall take place at the ordinary meeting in November.

58A.* Whenever an extraordinary vacancy shall occur in the office of Warden, the Senate, at its next meeting and without previous nomination being required, shall elect one of its members as Warden, and the member so elected shall hold office till the next November meeting.

59. Members of the Council shall be elected at the first meeting held after the vacancy shall have become known to the Warden.

60. The members of the Senate shall be informed by circular when any vacancy occurs in the office of Warden, Clerk, or Member of Council, and such circular shall state the date up to which nominations will be received.

61. Every nomination shall be signed by at least two members of the Senate.

62. No person shall be proposed for election whose name has not appeared on the Notice-paper.

63. Any person nominated as a candidate for any office may by letter request the Clerk to cancel his nomination, and the receipt of such letter shall be held to cancel such nomination.

* Passed by Senate, 28th March, 1894.

64. In all elections if no more than the required number of persons be nominated, the Warden shall declare them elected.

65. If more than the required number of persons be nominated voting papers shall be distributed and every member present shall vote for the required number of candidates ; but no member who has a direct pecuniary interest in the result of the election shall be allowed to vote.

66. When the voting papers have been distributed the doors shall be closed until such time as the papers shall have been collected.

67. The Warden shall appoint from the members present as many scrutineers as he shall think proper, and shall assign them their duties.

68. The votes shall be counted by the scrutineers, and the number of votes given for each candidate shall be reported to the Warden, who shall then declare the result of the election.

E. QUESTIONS.

69. Questions touching the affairs of the University may be put to the Warden or to the Representative of the Council in the Senate.

70. The Warden may disallow any question which he thinks ought not to be put, and may alter and amend any question which is not in accordance with the Standing Orders, or which is in his opinion injudiciously worded.

71. The Warden or Representative of the Council to whom a question is put, may without reason assigned decline to answer at all or until notice thereof has been duly given.

72. By permission of the Senate any member may put a question in the absence of the member who has given notice of it.

73. By permission of the Senate a member may amend in writing a question of which he has given notice and put it as amended.

74. In putting any question no argument or opinion shall be offered nor shall any facts be stated except so far as may be necessary to explain such question.

75. In answering any question the matter to which it refers shall not be debated.

76. Replies to questions, of which notice has been given, shall be in writing, and having been read, shall be handed to the Clerk, and recorded in the Minutes.

77. Questions not on the Notice Paper shall not be recorded in the Minutes, nor shall the answers thereto.

F. COMMITTEE OF THE WHOLE SENATE.

78. A Committee of the whole Senate is appointed by a resolution "That the Senate do now resolve itself into a Committee of the whole."

79. The Warden shall be Chairman of such Committee unless he be unwilling to act, in which case any other member may be voted to the chair.

80. When the matters referred to the Committee have been disposed of the Senate resumes, and the report of the Committee is at once proposed to the Senate for adoption.

81. When the matters so referred have not been disposed of, the Senate having resumed and having received a report of the Committee to the effect that the matters have not been fully disposed of, may appoint a future day for the Committee to sit again.

82. A member may speak more than once to each question.

83. A motion need not be seconded.

V. SELECT COMMITTEES.

84. Select Committees, unless it be otherwise ordered, shall consist of five members, who shall elect their own Chairman, and of whom three shall be a quorum.

85. The Chairman shall have both a deliberative and a casting vote.

86. At the time of the appointment of the Committee the Senate shall instruct the Committee as to the matters to be reported on, by them, and their report shall be confined to such matters.

87. The Chairman shall present the report of the Committee to the Senate, and it shall be forthwith discussed or postponed for future consideration.

VI. SUSPENSION OF STANDING ORDERS.

88. Any of these Standing Orders may be suspended for the time being on motion made with or without notice, provided that a quorum shall be present, and that such motion shall have the concurrence of at least two-thirds of the members present.

The above Standing Orders were adopted by the Senate at a meeting held on the 2nd day of December, 1885, the previous code having been rescinded.

FREDERIC CHAPPLE,

December 2nd, 1885.
