IT WAS estimated that between 500 and 600 citizens attended the levee at Government House yesterday in honor of the King's Birthday. Favored by sunny conditions, there was a brilliant scene on the lawns in the blending of the colors of military and naval uniforms, the academic robes of University professors and the wigs and gowns of judges. Top picture shows military representatives and officers of the police formation led by the Commissioner (Brigadier-General Leane), and below is a group from the University.
