Outspoken View Of Rhodes Scholar FINDING JOBS

"When a buy reaches 14 years of age for should know whether to pursue an scademic current whether to pursue an scademic current with the brilliant 18-year-old Rhodes Scholar, said today. "Unless a student has pand they do not difficult, it is no use going to be University, for the examinations will student who yeared years of the current will student who yeared years of the scale of Science degree, left this afternoon in the Oriova Gr. It is also the property of the scale of the sc

Oxford.

He said there were thousands of bachelors of arts who made little further progress. At 22 years of age or many students were unqualified or abything but academic at the University but had not at the University but had jobs were much more fortunate.

Education, and Jobs

"Although a student has a degree when he reaches 22, it does not si-ways lead anywhere," said John. "Unless a boy can do sufficiently well to ensure the securing of emoloyment through hir degree it is hardly worth while. University education it.
