

October 13, 1937

Dear Barbacki,

I believe I have never yet acknowledged the fine book you sent me about Polish wheats, and your letter of July 31st which I found full of interest. I shall be very glad to see your discussion of methodical^{ological} considerations, which you promise in a forthcoming number of the Journal of the National Polish Institute of Rural Economy, in Polish and English. Meanwhile allow me to thank you for the addition to our library.

Yours sincerely,
