THE OBSERVATORY
CAMBRIDGE

4/6/46

Dear Professor Fisher,

Thank you very
much for sending me your paper. I
find it most interesting. I have not
seen anything like this theorem having
been treated in your particular way
in the literature.

I peruse your paper as you might possibly want it. I should be very grateful, however, if I could see it again. I have not had much time to study it properly, and I shall be away from Cambridge to-morrow.

We had a delightful afternoon last Saturday. With many thanks and best wishes for your trip to U.S.A.,
Yours sincerely,
H. A. Spink.
