Professor Sir Ronald Fisher  
Gonville and Caius College  
Cambridge, England

My dear Professor,

Thank you very much for your letter. I am interested to hear that the research on twins has already given results. I am not aware of what our own data are because I have not yet heard about it from home, and will be there only after the end of June. I am spending some months with Joshua Lederberg working in bacterial genetics.

I presume I will have something at least to discuss with you in Montreal. I must say, however, that I am a little scared of the possible reciprocal psychological influences between twins. Has Verschuer any data on this point?

Yours sincerely,

*Luca*
