

19th. November 1956.

Dear Mr. Grant,

I have Darlington's letter about the cover and prospectus and agree with him that the size of the title on the green cover enclosed is slightly preferable to that on the white proof.

In respect of the size of fount, I should prefer that you should decide, after consideration of Darlington's views, since my eyesight is so bad that I feel I am likely to judge badly for others.

I think these are the only points in Darlington's letter on which I need comment.

Yours sincerely,
