

21st February 1946.

Dear Professor Darmois,

If I can I will fly to Paris on March 15th., but I have not yet received any notice of priority passage from the Foreign Office. I have now written them again asking particularly for this date.

Until receiving your letter I was not sure that so early a visit would suit your arrangements.

I think you will by now have received the English text of what I hope to say about Fiducial Inference. I hope shortly to send you

matter on the Use of Matrices in Conjectural Problems. I should much value your opinion on whether no more than six lectures will suffice to cover my expenses.

Your sincerely,
