

24 May 1934.

Professor R.C. Punnett,
Gonville and Caius College,
Cambridge,

Dear Professor Punnett,

I wonder if you could find time to come down to Harpenden sometime this year, lunch with me and see the poultry experiment, which you ^{said you} would regard with some scepticism. There are already a good many points of interest in the chick stages, which I should like you to see, if you could give the time.

Yours sincerely,
