

January 27, 1942

Dear Dr O'Brien,

Many thanks for your wire and for all the trouble you have taken. As the grant is for £200 a year it will enable me, in the course of the year, to catch up the one month of pay for which I have not otherwise provided. I expect you are writing to let me know how the grant will be paid, e.g., three months at a time, or whatever is your custom. If your cheque is made payable to me as Galton Professor, I think there can be no difficulty.

Yours sincerely,

I have duly received the letter confirming your wire.
