

3 September 1943

Dear O'Brien,

Many thanks for your note and for putting in train the job about the mice. In time I should certainly be able to run a useful colony at Cambridge, though things move there slowly at present.

I enclose cheque for £91.14.5, being unexpended balance at 30th September of the grant you were kind enough to obtain for me when University College abolished my secretary.

Yours sincerely,
