12 February 1943

Dear Dr Green,

Thank you very much for your note of January 6th. It is a very great relief to me to have your assurance that the support that the Rockefeller Foundation has given during the past year to the Galton Laboratory will be continued until January 31, 1945. This will enable me to carry on confidently with the work of the Department <sup>without fear</sup> of being suppressed owing to exigencies of the call of the War.

I shall be very happy to see Dr O'Brien again when he can make contact with me and to render account of expenditure for the first year of your grant.

Yours sincerely,
