

CORTICOTOMY-ASSISTED ORTHODONTICS

A thesis submitted in partial fulfilment of the requirements for the degree of
Doctor of Clinical Dentistry (Orthodontics)

by

Dr. Nida Khan
BDS (Hons)

Orthodontics
School of Dentistry
Faculty of Health Sciences
The University of Adelaide

2015

Table of Contents

1. CONTENTS	2
Literature Review List of figures	4
Article One List of figures.....	4
Article One List of tables.....	4
Article Two List of figures	4
Article Two List of tables.....	4
2. ACKNOWLEDGEMENTS.....	5
3. SIGNED STATEMENT.....	6
4. SUMMARY	7
5. LITERATURE REVIEW.....	9
Introduction	9
The Periodontium.....	9
Alveolar Bone.....	9
Periodontal Ligament	11
Cementum	12
Gingiva	12
Theories of Orthodontic Tooth Movement	13
The Pressure-Tension Theory	13
Bioelectrical Theory	15
Phases of Orthodontic Tooth Movement.....	15
Accelerating Orthodontic Tooth Movement	18
Non-surgical Methods	18
Surgical Methods	21
Corticotomy Assisted Orthodontic Tooth Movement	23
Regional Acceleratory Phenomena.....	25
Animal Research	27
Human Research.....	29
Orthodontically Induced Inflammatory Root Resorption	32
Cellular Processes	33
Classification and Detection	34

Diagnosis.....	34
Microcomputed Tomography.....	35
The Animal Model	36
References.....	38
6. RATIONALE OF THE CURRENT STUDY.....	47
7. STATEMENT OF PURPOSE	49
8. ARTICLE ONE.....	50
9. ARTICLE TWO	69
10. CONCLUDING REMARKS	85

Literature Review List of Figures

Figure 1 Technique for Dentoalveolar distraction (Kharkar et al. 2010)	22
Figure 2 Acceleratory effects of RAP (Frost 1989).....	26

Article One List of Figures

Figure 1: Timeline of experimental procedure	54
Figure 2: Control and experimental groups	54
Figure 3: Appliance Design	55
Figure 4: Reflection full thickness flap.....	56
Figure 5: Corticotomy procedure being undertaken	57
Figure 6: Slice representing measure from CEJ to root apex	58
Figure 7: Sample slice of region of interest of the mesio-buccal root of the first molar	59
Figure 8: Line graph representing inter-scan differences of the same hydroxyapatite standards due to changes in time and orientation of standard.....	60
Figure 9: Reconstruction of the sagittal slices generated a 3D representation of entire root structure.....	60
Figure 10: Sample representation of roots in each group from reconstructed sagittal slices ..	61
Figure 11 Adjusted mean root volumes.	62

Article One List of Tables

Table 1: P-values when comparing root volumes between groups.....	63
---	----

Article Two List of Figures

Figure 1: Timeline of experimental procedure	73
Figure 2: Appliance Design	73
Figure 3: Corticotomy procedure being undertaken	74
Figure 4: 3D surface rendering of corticotomy cuts	75
Figure 5: Sample slice of region of interest of root of first molar	76
Figure 6: Line graph representing inter-scan differences of the same hydroxyapatite standards due to changes in time and orientation of standard.....	77
Figure 7: 3D reconstructed images of representative sample of root structures for each group	78
Figure 8: Adjusted mean values for root volume.....	79

Article Two List of Tables

Table 1: P-values when comparing root volumes between groups.....	79
---	----

2. Acknowledgements

The completion of this thesis would not be possible without the assistance of the following people:

- My supervisors, Professor Wayne Sampson, Professor Craig Dreyer, and Dr Ian Parkinson, for giving me this opportunity, providing expert guidance, editorial opinion and invaluable support.
- Bone and Joint Research Laboratory Staff – Ms Helen Tsangari, Yolandi Starczak, and Dr Paul Anderson, for their generosity with time and laboratory assistance.
- Laboratory staff at The University of Adelaide, orthodontic department, Ms Marjorie Quinn and Ms Sandie Hughes, for technical assistance.
- Ms Suzanne Edwards, for assistance with statistical analysis and interpretation.
- My fellow researchers and friends, Drs Mun Jong, Cherry Zaw and Berna Kim.
- The Australian Society of Orthodontics Research Foundation, for financial support.
- Gunz, GAC and 3M, for generous donations of materials.
- The staff of the Animal House, for their assistance with live handling of animals.
- To all my wonderful friends, who have made me laugh, cry and held me together over last three years.

And finally, I wish to dedicate this to my beloved family, who have educated, encouraged and supported me on this journey.

3. Thesis Declaration

I certify that this work contains no material which has been accepted for the award of any other degree or diploma in my name, in any university or other tertiary institution and, to the best of my knowledge and belief, contains no material previously published or written by another person, except where due reference has been made in the text. In addition, I certify that no part of this work will, in the future, be used in a submission in my name, for any other degree or diploma in any university or other tertiary institution without the prior approval of the University of Adelaide and where applicable, any partner institution responsible for the joint-award of this degree.

I give consent to this copy of my thesis when deposited in the University Library, being made available for loan and photocopying, subject to the provisions of the Copyright Act 1968.

The author acknowledges that copyright of published works contained within this thesis resides with the copyright holder(s) of those works.

I also give permission for the digital version of my thesis to be made available on the web, via the University's digital research repository, the Library Search and also through web search engines, unless permission has been granted by the University to restrict access for a period of time.
